Footnotes:

¹ Students with a German language level of less than B2 (CEFR) or equivalent take the compulsory module “German for International Students”. All other students (with a German language level more advanced than B2 (CEFR) or equivalent) take the module “Foreign Language I”.

² The Internship Semester must be completed in accordance with the Internship Regulations. The supervision, preparation and follow-up take place at the University.

³ Of the marked modules, 35 must be included in the calculation of the final mark. These modules must include the project modules, the Masters thesis / the Master’s colloquium and at least three elective modules. The additional module marks to be included in the calculation of the final mark are selected automatically, with priority given to the modules for which the highest marks have been awarded.

Upon request, the student can be permitted to decide independently which module marks should be used for calculating the final mark.

This request must be submitted to the Examinations Office.
